Peachy,

Reviews are in: "This might be Brooks' best running shoe!" Thanks to its DNA-tuned midsole, the Brooks Glycerin Max has just debuted with max cushioning that's both soft and responsive. Using a dual-cell technique, Brooks' latest nitrogen-infused foam provides plush landings with large cells in the heel and responsive toe-offs with smaller cells in the forefoot. The roomy upper accommodates wider feet, and GlideRoll Rocker geometry ensures smooth heel-to-toe transitions. A wide base adds stability.

You can find the Glycerin Max [online](#) at most Big Peach Running Co. locations. Try them out, or join one of our upcoming demo runs!

**Check online or call ahead to confirm availability.*
